AquaCat 80

The AquaCat 80 Catamaran is derived from the need to meet the demand for greater onboard comfort at sea. Its twin hull design provides superior stability, faster acceleration and higher top speeds, more efficiency, and greater suitability for long-range cruising.

Additionally, the catamaran form, with its minimal draft, can easily access bays, marinas and shallow-water areas such as the Great Barrier Reef, the Bahamas, the Chesapeake Bay.

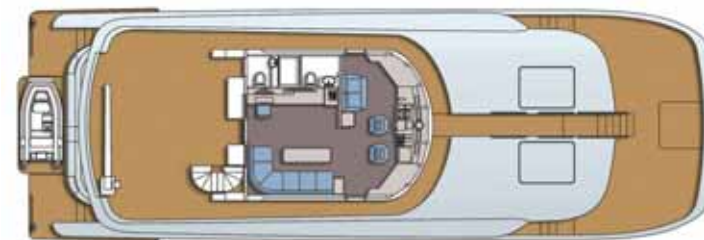

The AquaCat 80 Catamaran is designed to cater to the explorer. Her wide beam provides vastly increased interior volume and spacious decks. The walkaround main and upper decks allow easy access for mooring, while still providing large owner cabin, saloon and deck areas for relaxing and recreation.

Horizon's new AquaCat 80 Catamaran gives a vision for a vessel with opulent interior and exterior spaces to relax and enjoy.

AquaCat 80 Specification

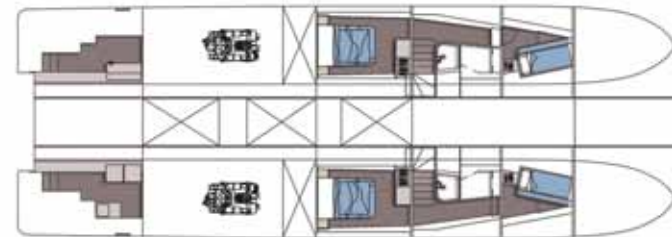

L.O.A.	81'-0" / 24.7m
L.W.L.	69'-4" / 21.14m
Beam	27'-3" / 8.3m
Draft (prop. tip clearance)	4'-11" / 1.5m
Height (W.L. to top of arch)	22'-5" / 6.82m
Displacement (light approx.)	169,400 lbs / 77 tons
Fuel Tank	3,600 gals / 13600 lts
Fresh Water Tank	800 gals / 3000 lts
Holding Tank	660 gals / 2500 lts
Engines	CAT C18A 1136HP
Generator(50Hz)	Onan 27kw x 2
Generator(60Hz)	Onan 32kw x 2
Bow Thruster	ABT 38HP x 2
Stern Thruster (option)	ABT 20HP x 2
Windlass	Maxwell VWC 3500(2)
